In the **PATENT APPLICATION** of:

Cheng et al.

Application No.: 09/925,356

Confirmation No.: 4334

Filed: August 9, 2001

For: PROCESS OF FORMING FIELD
EMISSION ELECTRODE FOR
MANUFACTURING FIELD EMISSION
ARRAY

Group: 2831

Examiner: Adolfo Nino

Our File: DEE-PT028

Date: March 26, 2004

AMENDMENT AFTER ALLOWANCE PURSUANT TO 37 C.F.R. §1.312

Mail Stop Issue Fee
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

Enclosed herewith is a replacement sheet for Figures 3(e) – 3(g). The amendment made in the replacement sheet is with respect to Figure 3(f) only. More specifically, in Figure 3(f), reference numeral 19 references the upper portion of the unoxidized remained metal layer, which is in the shape of plural conoids (See page 5, lines 22-23 of the present application). However, in Figure 3(f) as originally submitted, the line for reference numeral 19 inadvertently did not extend all the way into the upper portion of the unoxidized remained metal layer. Accordingly, the enclosed

Applicant: Cheng et al.
Application No.: 09/925,356

replacement sheet amends Figure 3(f) so that reference numeral 19 properly references the upper portion of the unoxidized remained metal layer.

Entry of this amendment is respectfully requested. For convenience, the replacement sheet is provided in triplicate.

Respectfully submitted,

Cheng et al.
